

INDEX TO VOLUME XLIV

- ABEL, J. J., M. C. PINCOFFS and C. A. ROUILLER.** On the presence of albumoses in the tissues and in the blood, with special reference to their occurrence in the gastrointestinal mucosa, 320.
- Acid, accumulation of, in tissues, cause of death from high temperature, 581.**
- Adrenalin.** See *Epinephrin*.
- Adrenals and experimental hyperglycemias, 543.**
- Adrenals, relation of liberation of epinephrin to rate of blood flow through, 149.**
- Adrenin.** See *Epinephrin*.
- Albumoses in the tissues, blood and gastro-intestinal mucosa, 320.**
- All-or-none principle in graded response of skeletal muscle, 517.**
- ALVAREZ, W. C.** See TAYLOR and ALVAREZ, 344.
- Alveolar air, changes in, during inspiration and expiration, 369**
- AMBERG, S. and W. B. McCLURE.** The occurrence of citric acid in urine, 453.
- Anaesthesia, ether, effect of, on catalase content of blood, 290.**
- Appetite, hunger and, in fever, 222.**
- BAILEY, A. A.** See COBB, BAILEY and HOLTZ, 239.
- BAITSELL, G. A.** A study of the clotting of the plasma of frog's blood and the transformation of the clot into a fibrous tissue, 109.
- Blood, action of adrenalin on, 176.**
- , albumoses in, 320.
- , catalase content of, 290.
- , flow, effect of, on liberation of epinephrin, 149.
- in thyroid, effect of adrenin on, 215.
- Blood pressure, effect upon interchange of fluid in blood and tissue spaces, 298.**
- reaction, respiratory response to changes in, 84.
- , transformation of clot into fibrous tissue, 109.
- volume during hibernation, 132.
- BRINE, B. M.** The effect of varying the calcium and potassium content of perfusion fluids on vagus inhibition, 171.
- BURGE, E. L.** See BURGE and BURGE, 75.
- BURGE, W. E.** The effect of ether anaesthesia, the emotions and stimulation of the splanchnics on the catalase content of the blood, 290.
- and E. L. BURGE. The effect of the emotions on the catalase content of the liver, 75.
- BURGET, C. E.** Attempts to produce experimental thyroid hyperplasia, 492.
- CALCIUM, effect of, on vagus inhibition, 171.**
- Carbon dioxide acidosis, 196.**
- , effect of, on H-ion concentration of arterial blood, 196.
- , —, —, on tidal air, 196.
- CARLSON, A. J.** See MEYER and CARLSON, 222.
- Catalase content of blood, 290.**
- — — liver, effect of emotions on, 75.
- Catfish, responses of, to metallic and non-metallic rods, 405.**
- , skin of, as receptive organ for fight, 212.
- CHITTENDEN, R. H. and F. P. UNDERHILL.** The production in dogs of a pathological condition which closely resembles human pellagra, 13.

- Citric acid, occurrence of, in urine, 453.
 Clotting of blood plasma and transformation into fibrous tissue, 109.
 COBB, S., A. A. BAILEY and P. R. HOLTZ. On the genesis and inhibition of extensor rigidity, 239.
- DEAD** space, respiratory, in man, 391.
 Death from high temperature, cause of, 581.
 DUNDON, J. R. Contributions to the physiology of the stomach. XLIII. The influence of experimental ulcers of the stomach and duodenum on the hunger contractions of the empty stomach, 234.
- ELECTRODES** used in electrocardiography, 80.
 Electrocardiography, electrodes used in, 80.
 Emotions, effect of, on catalase content of blood, 290.
 —, —, —, on catalase content of liver, 75.
 Epinephrin, action of, on blood, 176.
 —, effect of blood flow on liberation of, 149.
 —, effects of, on distribution of blood, 215.
 — secretion and experimental hyperglycemias, 543.
 — vasodilatation, mechanism for, 353.
 Extensor rigidity, genesis and inhibition of, 239.
- FEVER**, hunger and appetite in, 222.
 Fibrous tissue, relation of plasma clot to, 109.
 Fishes, reception of mechanical stimuli in, 463.
 FRASER, L. MCP. See HARTMAN and FRASER, 353.
- GASTRIC** hunger contractions, influence of experimental ulcers on, 234.
 Gastro-intestinal mucosa, albumoses in, 320.
 GUNNING, R. E. L. The effects of adrenin on the distribution of the blood. VI. Venous discharge from the thyroid glands, 215.
- HARTMAN**, F. A. and L. MCP. FRASER. The mechanism for vaso-dilatation from adrenalin, 353.
 Heart, beating, heat liberated by, 421.
 Heat liberated by the beating heart, 421.
 HERRMANN, E. T. See SCOTT, HERRMANN and SNELL, 313.
 Hibernation, blood volume during, 132.
 HOLTZ, P. R. See COBB, BAILEY and HOLTZ, 239.
 HOOKER, JR., H. D. See LAURENS and HOOKER, 504.
 HOOVER, D. H. See PEARCE and HOOVER, 391.
 Hunger and appetite in fever, 222.
 Hyperglycemia, experimental, and epinephrin secretion of adrenals, 543.
- INHIBITION**, reciprocal, in earthworm, 490.
 Intestine, excised, effect of temperature on rhythm of, 344.
- JORDAN**, H. Integumentary photosensitivity in a marine fish, *Epinephelus striatus* Bloch, 259.
- KARR**, W. G. and H. B. LEWIS. The phenol excretion of guinea-pigs maintained on an exclusive oat diet, 586.
 KNOWLTON, F. P. and A. R. MOORE. Note on the reversal of reciprocal inhibition in the earthworm, 490.

- LAURENS, H.** and **H. D. HOOKER, Jr.** Studies on the relative physiological value of spectral lights. I. Apparatus, 504.
- LEWIS, H. B.** See **KARR** and **LEWIS**, 586.
- LEWIS, M. R.** and **W. H. LEWIS.** The contraction of smooth muscle cells in tissue cultures, 67.
- LEWIS, W. H.** See **LEWIS** and **LEWIS**, 67.
- Light, skin of catfish as receptive organ for, 212.
- Lights, spectral, relative physiological value of, 504.
- Liver, effect of emotions on catalase content of, 75.
- McCLURE, W. B.** See **AMBERG** and **McCLURE**, 453.
- MAYER, A. G.** Formula for rate of nerve conduction in sea water, 591.
- Is death from high temperature due to the accumulation of acid in the tissues?, 581.
- Mechanical stimuli, response of catfish to, 463.
- MENTEN, M. L.** The action of adrenalin on the blood, 176.
- MEYER, J.** and **A. J. CARLSON.** Contributions to the physiology of the stomach. XLII. Hunger and appetite in fever, 222.
- MOORE, A. R.** See **KNOWLTON** and **MOORE**, 490.
- Muscle, all-or-none principle in contraction of, 517.
- cells, smooth, contraction of, in tissue cultures, 67.
- Muscular activity, effect upon interchange of fluid in blood and tissue spaces, 313.
- NERVE** conduction in sea water, formula for rate of, 591.
- OAT** diet and phenol excretion in guinea-pigs, 586.
- PARDEE, H. E. B.** Concerning the electrodes used in electrocardiography, 80.
- PARKER, G. H.** and **A. P. VAN HEUSEN.** The reception of mechanical stimuli by the skin, lateral-line organs and ears in fishes, especially in *Amiurus*, 463.
- — — — — The responses of the catfish, *Amiurus nebulosus*, to metallic and non-metallic rods, 405.
- PEARCE, R. G.** Studies in the physiology of the respiration. II. The changes taking place in the composition of the alveolar air during inspiration and expiration, 369.
- and **D. H. HOOVER.** Studies in the physiology of the respiration. III. The oxygen and the carbon dioxide dead space in man, 391.
- Pellagra-like condition in dogs, production of, 13.
- PETERS, JR., J. P.** The response of the respiratory mechanism to rapid changes in the reaction of the blood, 84.
- Phenol excretion of guinea-pigs fed on oat diet, 586.
- Photosensitivity, integumentary, in a marine fish, 259.
- PILCHER, J. D.** The bio-assay of *veratrum viride*, 1.
- PINCOFFS, M. C.** See **ABEL**, **PINCOFFS** and **ROUILLER**, 320.
- Plasma clot, relation of, to fibrous tissue, 109.
- Potassium, effect of, on vagus inhibition, 171.
- PRATT, F. H.** The all-or-none principle in graded response of skeletal muscle, 517.
- RASMUSSEN, A. T.** and **G. B. RASMUSSEN.** The volume of the blood during hibernation and other periods of the year in the woodchuck (*Marmota monax*), 132.

- RASMUSSEN, G. B. See RASMUSSEN and RASMUSSEN, 132.
- Respiration, physiology of, 369, 391.
- Respiratory response to changes in blood reaction, 84.
- Response, graded, of skeletal muscle, 517.
- ROGOFF, J. M. See STEWART and ROGOFF, 149, 543.
- ROTH, G. B. On the movements of the excised ureter of the dog, 275.
- ROUILLER, C. A. See ABEL, PINCOFFS and ROUILLER, 320.
- SCOTT, F. H.** Factors influencing the interchange of fluid between blood and tissue spaces. I. Blood pressure, 298.
- , E. T. HERRMANN and A. M. SNELL. Factors influencing the interchange of fluid between blood and tissue spaces. II. Muscular activity, 313.
- SCOTT, R. W. The effect of the accumulation of carbon dioxide on the tidal air and on the H-ion concentration of the arterial blood in the decerebrate cat, 196.
- Skeletal muscle, all-or-none principle in graded response of, 517.
- Skin of catfish as receptive organ for light, 212.
- Smooth muscle cells, contraction of, in tissue cultures, 67.
- SNELL, A. M. See SCOTT, HERRMANN and SNELL, 313.
- SNYDER, C. D. On the heat liberated by the beating heart, 421.
- Spectral lights, relative physiological value of, 504.
- Splanchnics, effect of stimulation of, on catalase content of blood, 290.
- STEWART, G. N. and J. M. ROGOFF. The alleged relation of the epinephrin secretion of the adrenals to certain experimental hyperglycemias, 543.
- — —. The relation of the rate of the spontaneous liberation of epinephrin to the rate of blood flow through the adrenals, 149.
- Stomach, physiology of, 222, 234.
- TAYLOR, F. B. and W. C. ALVAREZ.** The effect of temperature on the rhythm of excised segments from different parts of the intestine, 344.
- Temperature, effect of, on rhythm of excised intestine, 344.
- , high, cause of death from, 581.
- Thyroid, effect of adrenin on blood flow in, 215.
- hyperplasia, experimental, 492.
- Tissue cultures, contraction of smooth muscle cells in, 67.
- ULCERS**, experimental, and gastric hunger contractions, 234.
- UNDERHILL, F. P. See CHITTENDEN and UNDERHILL, 13.
- Ureter, excised, of dog, movements of, 275.
- Urine, occurrence of citric acid in, 453.
- VAGUS** inhibition, effect of calcium and potassium on, 171.
- VAN HEUSEN, A. P. The skin of the catfish (*Amiurus nebulosus*) as a receptive organ for light, 212.
- See PARKER and VAN HEUSEN, 405, 463.
- Vasodilatation from adrenalin, mechanism for, 353.
- Veratrum viride, bio-assay of, 1.

THE
AMERICAN JOURNAL
OF
PHYSIOLOGY

VOLUME XLIV

BALTIMORE, MD.
1917

100

CONTENTS

No. 1. AUGUST 1, 1917

THE BIO-ASSAY OF VERATRUM VIRIDE. <i>J. D. Pilcher</i>	1
THE PRODUCTION IN DOGS OF A PATHOLOGICAL CONDITION WHICH CLOSELY RESEMBLES HUMAN PELLAGRA. <i>Russell H. Chittenden and Frank P. Underhill</i>	13
THE CONTRACTION OF SMOOTH MUSCLE CELLS IN TISSUE CULTURES. <i>Margaret Reed Lewis and Warren H. Lewis</i>	67
THE EFFECT OF THE EMOTIONS ON THE CATALASE CONTENT OF THE LIVER. <i>W. E. Burge and E. L. Burge</i>	75
CONCERNING THE ELECTRODES USED IN ELECTROCARDIOGRAPHY. <i>Harold E. B. Pardee</i>	80
THE RESPONSE OF THE RESPIRATORY MECHANISM TO RAPID CHANGES IN THE REACTION OF THE BLOOD. <i>John P. Peters, Jr</i>	84

No. 2. SEPTEMBER 1, 1917

A STUDY OF THE CLOTTING OF THE PLASMA OF FROG'S BLOOD AND THE TRANSFORMATION OF THE CLOT INTO A FIBROUS TISSUE. <i>George A. Baitzell</i>	109
THE VOLUME OF THE BLOOD DURING HIBERNATION AND OTHER PERIODS OF THE YEAR IN THE WOODCHUCK (<i>MARMOTA MONAX</i>). <i>Andrew T. Rasmussen and Gertrude B. Rasmussen</i>	132
THE RELATION OF THE RATE OF THE SPONTANEOUS LIBERATION OF EPINEPHRIN TO THE RATE OF BLOOD FLOW THROUGH THE ADRENALS. <i>G. N. Stewart and J. M. Rogoff</i>	149
THE EFFECT OF VARYING THE CALCIUM AND POTASSIUM CONTENT OF PERFUSION FLUIDS ON VAGUS INHIBITION. <i>Blanche M. Brine</i>	171
THE ACTION OF ADRENALIN ON THE BLOOD. <i>M. L. Menten</i>	176
THE EFFECT OF THE ACCUMULATION OF CARBON DIOXIDE ON THE TIDAL AIR AND ON THE H-ION CONCENTRATION OF THE ARTERIAL BLOOD IN THE DECEREBRATE CAT. <i>R. W. Scott</i>	196
THE SKIN OF THE CATFISH (<i>AMIURUS NEBULOSUS</i>) AS A RECEPTIVE ORGAN FOR LIGHT. <i>Anne P. Van Heusen</i>	212
THE EFFECTS OF ADRENIN ON THE DISTRIBUTION OF THE BLOOD. VI. VENOUS DISCHARGE FROM THE THYROID GLANDS. <i>R. E. Lee Gunning</i>	215
CONTRIBUTIONS TO THE PHYSIOLOGY OF THE STOMACH. XLII. HUNGER AND APPETITE IN FEVER. <i>Jacob Meyer and A. J. Carlson</i>	222
CONTRIBUTIONS TO THE PHYSIOLOGY OF THE STOMACH. XLIII. THE INFLUENCE OF EXPERIMENTAL ULCERS OF THE STOMACH AND DUODENUM ON THE HUNGER CONTRACTIONS OF THE EMPTY STOMACH. <i>J. R. Dundon</i>	234
ON THE GENESIS AND INHIBITION OF EXTENSOR RIGIDITY. <i>Stanley Cobb, Albert A. Bailey and Paul R. Holtz</i>	239

No. 3. OCTOBER 1, 1917

INTEGUMENTARY PHOTOSENSITIVITY IN A MARINE FISH, <i>EPINEPHELUS STRIATUS</i> BLOCH. <i>Hovey Jordan</i>	259
ON THE MOVEMENTS OF THE EXCISED URETER OF THE DOG. <i>George B. Roth</i> ...	275
THE EFFECT OF ETHER ANAESTHESIA, THE EMOTIONS AND STIMULATION OF THE SPLANCHNICS ON THE CATALASE CONTENT OF THE BLOOD. <i>W. E. Burge</i>	290
FACTORS INFLUENCING THE INTERCHANGE OF FLUID BETWEEN BLOOD AND TISSUE SPACES. I. BLOOD PRESSURE. <i>F. H. Scott</i>	298
FACTORS INFLUENCING THE INTERCHANGE OF FLUID BETWEEN BLOOD AND TISSUE SPACES. II. MUSCULAR ACTIVITY. <i>F. H. Scott, E. T. Herrmann and A. M. Snell</i>	313
ON THE PRESENCE OF ALBUMOSES IN THE TISSUES AND IN THE BLOOD, WITH SPECIAL REFERENCE TO THEIR OCCURRENCE IN THE GASTRO-INTESTINAL MUCOSA. <i>John J. Abel, M. C. Pincoffs and C. A. Rouiller</i>	320
THE EFFECT OF TEMPERATURE ON THE RHYTHM OF EXCISED SEGMENTS FROM DIFFERENT PARTS OF THE INTESTINE. <i>Fletcher B. Taylor and Walter C. Alvarez</i>	344
THE MECHANISM FOR VASODILATATION FROM ADRENALIN. <i>Frank A. Hartman and Lois McPhedran Fraser</i>	353
STUDIES IN THE PHYSIOLOGY OF THE RESPIRATION. II. THE CHANGES TAKING PLACE IN THE COMPOSITION OF THE ALVEOLAR AIR DURING INSPIRATION AND EXPIRATION. <i>R. G. Pearce</i>	369
STUDIES IN THE PHYSIOLOGY OF THE RESPIRATION. III. THE OXYGEN AND THE CARBON DIOXIDE DEAD SPACE IN MAN. <i>R. G. Pearce and D. H. Hoover</i>	391
THE RESPONSES OF THE CATFISH, <i>AMIURUS NEBULOSUS</i> , TO METALLIC AND NON-METALLIC RODS. <i>George Howard Parker and Anne P. Van Heusen</i> ...	405
ON THE HEAT LIBERATED BY THE BEATING HEART. <i>Charles D. Snyder</i>	421

No. 4. NOVEMBER 1, 1917

THE OCCURRENCE OF CITRIC ACID IN URINE. <i>S. Amberg and W. B. McClure</i> ...	453
THE RECEPTION OF MECHANICAL STIMULI BY THE SKIN, LATERAL-LINE ORGANS AND EARS IN FISHES, ESPECIALLY IN <i>AMIURUS</i> . <i>George Howard Parker and Anne P. Van Heusen</i>	463
NOTE ON THE REVERSAL OF RECIPROCAL INHIBITION IN THE EARTHWORM. <i>F. P. Knowlton and A. R. Moore</i>	490
ATTEMPTS TO PRODUCE EXPERIMENTAL THYROID HYPERPLASIA. <i>G. E. Burget</i>	492
STUDIES ON THE RELATIVE PHYSIOLOGICAL VALUE OF SPECTRAL LIGHTS. I. APPARATUS. <i>Henry Laurens and Henry D. Hooker, Jr.</i>	504
THE ALL-OR-NONE PRINCIPLE IN GRADED RESPONSE OF SKELETAL MUSCLE. <i>Frederick H. Pratt</i>	517
THE ALLEGED RELATION OF THE EPINEPHRIN SECRETION OF THE ADRENALS TO CERTAIN EXPERIMENTAL HYPERGLYCEMIAS. <i>G. N. Stewart and J. M. Rogoff</i>	543

CONTENTS
